Guess Your Teacher's Texts

Overview

In this fun getting to know you activity, students will guess which text you most likely sent.

Preparation

- Download and save to your Google Drive.
- Go through the prompts and responses and change the texts to match your interests.
- I use the emoji keyboard by JoyPixels to add in emojis.
- I have included pictures on one of the slides. You can delete and put in your own.
- Move the yellow box to the correct text.
- Blank slides have been included if you would like to add extra prompts and texts.

Guess Your Teacher's Texts Activity

- Make sure you're in *Present* mode before starting the activity so your students won't see the correct answer.
- For each slide, read the prompt and your possible texts aloud.
- After you read the three texts on the slide, students will guess which one is correct.

- They can use a whiteboard and write down the number they think corresponds to the text you would send, or they can hold up the number on their fingers. Whatever you think is the easiest!
- Add elaboration after each slide to help your students get to know you..
